DIMENSIONS	 <p>The technical drawings show the component's dimensions in millimeters. The side view (left) indicates a total height of 28.8 mm, a mounting tab height of 4.0 mm, and a central pin diameter of 0.8 mm. The top view (right) shows a square footprint with an outer width of 30.2 mm and an inner width of 15.0 mm. The distance from the top edge to the center of the mounting holes is 20.0 mm, and the distance between the two mounting holes is 7.5 mm on each side of the center.</p>

DIMENSIONS	<p>The technical drawing consists of two views of the transformer. The left view is a side profile showing a rectangular body with a width of 32.0 and a height of 26.0. Below the body are three mounting pins, with the first pin on the left being 4.5 units high. The right view is a top-down circular view of the transformer. The overall diameter is 20.0. The center has a diameter of $\phi 0.8$. Six terminals are arranged around the center, numbered 1 through 6. Terminals 1, 2, and 3 are on the top edge, and terminals 4, 5, and 6 are on the bottom edge. The distance between terminals 1 and 2 is 7.5, and between 2 and 3 is 7.5. The distance between terminals 4 and 5 is 15.0.</p>
